

# DDJ-1000 MAPPING - QUICKSTART

## Installation:

*Installation guide (50 pages)*

*FAQ (6 pages)*

*Step-by-step video (20 min)*

## Usage:

*Quick Start (8 pages)*

*Manual (80 slides)*

*Detailed video (90 min)*

*Full Reference (5 pages)*

# Advanced features: Enabling

Very Important: All automatic features are shipped **DISABLED** by default.

To enable these features, access page “2” of the hotcues of deck A and B.  
(do not confuse these with normal hotcues :)

To change this permanently, change the bome config file and restart bome

See also the smooth echo config section

## DECK A

Mode 1

16x Filters	TurnTable Break on pause	Tempo Enlarger	Auto Layout
Dual Deck			FPS: Frames Per Second

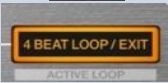

## DECK B

Mode 1

Search: Continuous	Search: Ignore Loops		Sync Aid
			External Cue

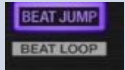

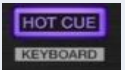

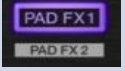

# Basic Features:

Main Button	How do I...	Answer
	Do a Quick Search?	Press “Shift”+”jog wheel”
	Zoom In?	Memory + turn the Browse encoder; If you press it goes to a default Zoom
	Listen a whole playlist?	Use “Shift”+”Memory”+”Search” to iterate the tracks one-by-one.
	Toggle Classic / Parallel?	Double click “deck select”
	Toggle Elapsed / Remain?	Double click “shift”
	Preview the tempo range?	“Shift” previews the tempo range. “Memory” for Loop/Move values. “Shift”+”Memory” for total length and base BPM
	Activate a coming Loop?	Long press “4 beat auto loop”
	Adjust the beatgrid?	Hold “key sync” + jogwheel for adjusting the BPM; Hold “Key reset”+jog for the beatmarker
	Move to Front?	Pres shift+Cue to move to Front
 + 	Customize the Settings?	All configurations <b>always</b> use shift + memory + “something”. To make this permant, change the BOME file itself
	Improve performance?	Raise the BOME clock using “Shift”+”Memory”+”Browser”

# Advanced Features #1:

Button	Name	Inspiration	Explanation
	Preview player	S4 MK3	Fast way to preview and seek the tracks <b>in the browser</b> . No decks consumed, nor hand movement. Disables PFLs.
	STEMS / Remix Decks	S4 MK3	Change <b>separately</b> filter / Volume / mute / FX input of the STEM components, or Remix decks slots
	Pattern recorder	S4 MK3	Record a <b>16-step sequence</b> of one-shots, and then play over it. Blink = recording; Solid = playing; Off = not playing
	Move by 1-beat	S4 MK3	Corrects loops by <b>1-beat</b> like the S4 move encoder. If there is no loop active, beatjumps 1 beat instead.
	JogFX chains	DJTT maps	Hear the turntable break effect. Deck A and B only. This effect requires a small delay on pause (ie, a lag).
	Resonant Filter	DJM-900	Uses the filter in single FX mode with a lot <b>more resonance</b> than the standard MixerFX. Requires the 16x Filters enabled.
	Turntable Off	CDJ-3000	Familiar Turntable power off sound.
	Loop fine adjust	CDJ-3000	Use the CDJs to very finely adjust the Loops, manually. In = whole loop; out = only out point.
	Polyrhythmic loops	CDJ-3000	

## Advanced Features #2:

Button	Name	Inspiration	Explanation
	Instant doubles	DDJ-1000	Clones the right track to the currently selected left side, and vice-versa. Useful to always use your right hand to cue and scratch.
	Echo Out effect	DDJ-SX2	Tap "Slip reverse". If you Hold it, it makes "censor" instead
	Backwards Loops	Virtual DJ	Apply a loop backwards. In this mode you first <b>listen to the loop once</b> , and only then press shift+"auto loop"
	Loop IN point	Virtual DJ	Press shift+Loop IN/OUT to <b>manipulate the IN point</b> , while keeping the OUT point unchanged.
	Slicer	Serato	Break the loop into 8 slices. Best used with Slip mode. 3x modes available: full beat roll, front ½ roll, back ½ roll.
	Tone Play	Pitch'n'Play	Change key up to 12 semitones. 3x modes: Cue and Play mode / Cue mode (=gate), play mode.
	Loop Rolls	Serato	Repeat beat with different sizes. 2x modes: quantized and non-quantized
	Pad FX	Rekordbox and DJTT	21x instant gratification style padFX
	Smooth echo	S11	Apply an <u>automatic echo</u> or an <u>vinyl break</u> when you close the fader, cross fader or jogwheel
Mode 1/p2	Dual Deck	S11/SX2	Control 2 decks at the same time. This enables creating mashups on the fly (deck 1 = instrumental; deck 3 = acapella).

## There are 3 different shifts!

## There are 8x Pad Modes:

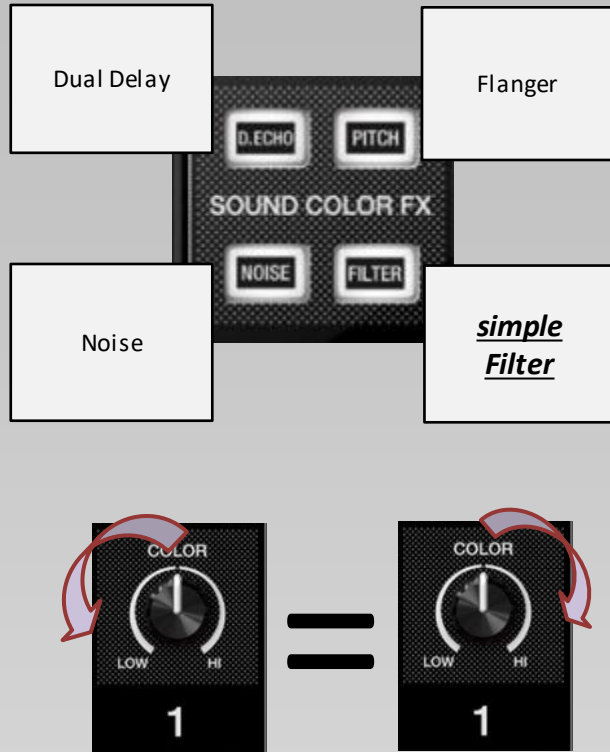

# GUI LAYOUT: overview

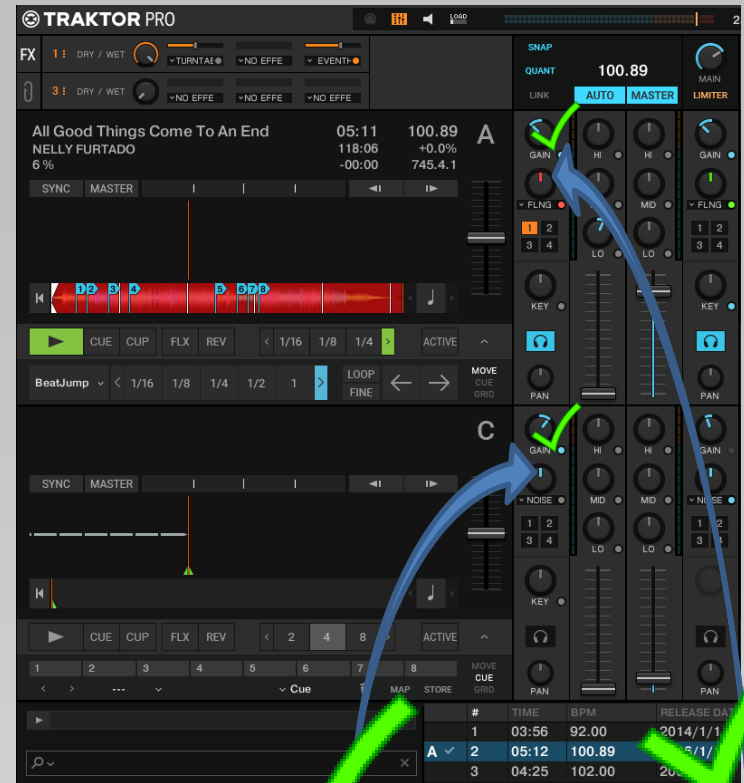

# 4x Filters mode (Deck A/B/C/D)

## SELECTION:

- In normal mode:
  - Each button selects one filter
  - Each knob works the normal way
- As such: 4 (buttons) x 1 (sides) x 1 (knobs) = 4x effects
- FX list: customizable on preferences / mixer / mixerFX

## Traktor GUI:

## DDJ-1000:

# 16x Filters mode (Deck A and B only)

## SELECTION:

I: Wormhole  
II: Polarwind  
III: Dot Delay  
IV: BarberPole

I: FlightTest  
II: EventHorizon  
III: Dual Delay  
IV: BarberPole

I: LaserSlicer  
II: Zzuurp  
III: Reverb  
IV: Noise

**I: Resonant Filter**  
III: Bit Crush  
IV: Time Gater

- In 16x filters mode:
  - Each button selects four effects
  - Each knob has two sides (RMX-1000 style)
  - Knobs 3&4 controls Deck 1&2 instead
- As such: 4 (buttons) x 2 (sides) x 2 (knobs) = 16x effects
- (Windows-only feature. Keep the preferences open!)

## Traktor GUI:

## DDJ-1000:

# 7x JogFX: chain a three effects controlled by the Jogwheel

## JOG FX:

(cancel)	Mode 6		
Beatmasher Digital filter Gater	Beatmasher Filter Reverb	EventHorizon (none) Gater	Gater Beatmasher Reverb
Flanger (None) Gater	Beatmasher Peak filter Gater	FormatFilter Peak filter Flightest	<b>Echo out</b>

# Smooth Echo: Config

## DECK A

 +

Mode 1			
SmoothEcho (Fader)	SmoothEcho (Crossfader)	SmoothEcho (Jog / HotCue)	
SmoothEcho (active)	EchoOut vs Vinyl		

## DECK B

Mode 1			
			

# Smooth Echo: Activation

 (Double Tap) +  **Smooth Echo ON/OFF**

 (Double Tap) +  **Fast Blink: Echo out**

 (Double Tap) +  **Slow Blink: Vinyl break**

*(The If the led doesn't blink, confirm that at least one smooth echo is configured)*

## DDJ-1000: Dual Deck

Dual deck enables you to control 2 decks at the same time.

For example, put a track in deck 1 and an acapella in deck 3, and control both together.

Demo from the S11: <https://youtu.be/Sp47QU6pyw?t=450>

To toggle this feature ON/OFF, go to the settings pad and enable pad 6:

Color	Duplication
Gray	Disabled
White	Basic Transport
Yellow	Adds Pads
Red	Adds Mixer

### Notes:

- This mode affects all 4x decks at once. It is not possible to split this per side.
- If you use sync, its recommended to disable “AUTO”
- Some pad modes will have limitations, like padFX. Please try it.
- Vinyl mode: ensure this has the same value in both decks
- If “Toggle”-style buttons are flipped between the decks, use the mouse to fix it
  - le, Play-Pause, Sync, Master Tempo, etc

## Pad mode #7: Poly-Rhythmic loops

Use poly-Rhythmic loops to bridge music styles, or in Arpeggios
